A limited number of trailers are available for use with this Fuels Reduction Trailer Program. Trailer maintenance is required often with these type of dump trailers. Furthermore, the personnel assigned to this program are also active emergency responders, creating additional challenges for exact scheduling. Please be patient and remember this is a free program to you.

Due to the high volume, no guarantee of availability can be made. Please provide 2 or 3 dates you would like to use the service. Every effort will be made to accommodate one of those dates if possible. Request for use will be filled in the order they are received. **It can be anticipated that during our busy time of year, there may be a 6 to 8 week waiting list.** The maximum number of days a trailer can be made available for use is five (5). If it is not full after five days, it will be picked up and brought to the next person on the list.
